PROFESSIONAL SUMMARY

Second-Year Information Technology student with strong backend and full-stack development experience using Java, Spring Boot, and React. Built multiple end-to-end applications with authentication, payment integration, cloud storage, and scalable backend architecture. Seeking internship opportunities in Backend or Full-Stack Development.

EDUCATION

Bachelor of Engineering (B.E.) in Information Technology

Datta Meghe College of Engineering (DMCE), Mumbai University | 2024 – 2028

TECHNICAL SKILLS

Programming: Java, Python

Backend: Spring Boot, Spring Security, REST APIs, JPA/Hibernate, Microservices

Frontend: React.js

Databases: MySQL, MongoDB

Tools & Technologies: Git, Maven, Docker, Kafka, Redis, Razorpay, Cloudinary

PROJECTS

Resume Builder (Full-Stack SaaS Application)

Live: https://resume-builder-frontend-ochre.vercel.app

• Developed full-stack resume builder with secure authentication and email verification.

• Integrated Razorpay for premium subscriptions and Cloudinary for image storage.

• Implemented transactional email system using Brevo.

• Built dynamic live preview with multiple templates and color customization.

Tech Stack: Java, Spring Boot, React, MySQL

Turf Booking System (Full-Stack Application)

• Designed and implemented secure booking platform with authentication and payment integration.

• Developed REST APIs and responsive frontend interface.

Tech Stack: Spring Boot, React, MySQL

YouTube Creator Tools (Web Application)

Live: https://youtube-creator-tools-frontend-y5yi.vercel.app

• Built web platform to generate YouTube tags and retrieve video metadata using YouTube Data API.

• Implemented thumbnail downloader and dynamic API-based rendering.

Tech Stack: Spring Boot, React

Journal App (Backend System)

• Developed backend journaling system integrated with MongoDB.

• Used Kafka for asynchronous processing and Redis for caching.

Tech Stack: Spring Boot, MongoDB, Kafka, Redis
